

Davelaar Sales Associates

Technical Factory Representation in Northern California & Northern Nevada Since 1979

Electrical Test and Measurement Instruments; Data Loggers, Ground Resistance Testers, Power Quality Analyzers; Light Meters, Clamp-on Multimeters, and Environmental Testers.

Fiberglass and PVC, Non-Metallic Electrical Enclosures to meet NEMA 1, 2, 3R, 4X, 12 and 13. UL and JIC Flat and Raised Covers as well as Floor Standing Designs. Available in special colors with factory modifications.

Your source for Fiberglass Conduit, Cable Tray, Channel Systems, Strut and Fittings for the electrical and mechanical markets. UL and CSA listed for use above and below ground. Conduit in Carbon Black for UV Resistance.

Dry-type, Industrial Control and Power Transformers. Product line includes residential and industrial Ignition, Drive Isolation, and CE Marked Transformers.

AEG Motor Controls, Starters, Connectors, and Relays; Electra-Cam Switches and Disconnects; 22mm and 30mm Push Buttons, Circuit Breakers, Manual Motor Starters and Towerlights.

Electrical South

Repair, Calibration, Testing, and Remanufacturing services for all major brands of Industrial Drives, Boards, and Controls.

Convenience interfaces and panel interface connectors with "Any Cable, Connector Combination". Grace Ports provide for NFPA 70E compliance.

Industrial Electrical Enclosures, NEMA, JIC, IEC, Modular, and Electronic Racks; Steel, Aluminum, Non-Metallic.

Davelaar Sales Associates

Technical Factory Representation in Northern California & Northern Nevada Since 1979

Switch Rated, Plugs, Receptacles and Connectors, 5 through 600 amp, for power and Control, Multi-in through 37 Conductor.

Power Quality products: Line/Load Reactors, DC Chokes, RFI/EMI Filters, Surge Arrestors, DVDT Filters, Sine Wave Filters, Motor Protection Filters, and Matrix Harmonic Filters.

Marine, Commercial and Industrial Lighting; Hazardous Location, NEMA 7 and 9, NEMA 4 and 4X, Fluorescent, Incandescent, High Pressure Sodium and Metal Halide.

Manufacturer of UL Listed Type 12, 3R, 4/4X cooling units ranging from 1200 to 24000 Btu/hr, including 460V models, Filterfans and a wide range of Heaters ranging from 10W to 800W

Maximum efficiency switch mode power supplies, for use in Control, Integration, and Automation applications. Semi-F47 compliant.

CE-Compliant Machine Guarding Safety Products; Interlock, Non-Contact, Emergency Cable-Pull and Foot Switches, Hinged Safety Interlocks, Safety Controllers, Light Curtains, Pressure Mats and Edges/Bumpers, Safety-Rated Limit Switches.

UL and NSF Certified, Shatterproof Fluorescent and Incandescent, Metal Halide and High Pressure Lamps.

Forced Air and Infrared Electric Heat, Process Heat, Hazardous Location Heaters, Industrial Fans and Ventilation Equipment, Thermostats/Controls, Portable Work Lights & Dock Lights. Including the Raywall, Markel and Fostoria product lines.

Extensive variety of high quality Photoelectric Sensors, Sensor Controls, Fiber Optic Light Guides; all configurations and applications.
